

BOQ : EXO – 200

Sr. No.	Description	Unit	Qty	Unit Rate	Amount
1	STP Exhaust Air Foul Odor, Microorganisms & Pollutant Destruction System	No.	1		
	Design, Sizing & Supply of STP area exhaust air odor & pollutant reduction/control and disinfection system using high concentration Gen. IV Electro - Chemical Oxidant [ECO] spray with high efficiency Bipolar Oxygen Ionization [BOI] technique. The entire odor control system has to be installed out of the duct & only odour disinfectant with riders to be injected using flexible tubing not more than 15 mm in duct carrying exhaust air. System / technology should be without any consumables, other than electricity.				
	ITEM: EXO - 200 HSN Code: 84213920				
	System Specifications:				
1.1	Treatment Methodology : Capture & Treat				
1.2	Technology : ECO + BOI				
1.3	Applied Dose : 80 - 150 ppb				
1.4	Make: Chemtronics				
1.5	Made in: India				
2	Accessories : Standard				
2.1	Backflow Preventor				
2.2	ECO + BOI Diffuser Fixture				
2.3	Piping & Tubing				
3	Installation & Commissioning supervision Charges are Free. To and fro air fare, free boarding lodging and local conveyance to your account. Installation and Commissioning Visit Details - 1 Day ; If above 1 day it will be charged extra Per day per Engineer.				
4	Standard Packing, Forwarding & Freight Charges	System	1		
5	Total Value	System	1		
6	GST on Total Value	%	18		
7	Grand Total	System	1
